

Soft foam milling : for multiple disabilities

- **Large rang of soft foam (with or without shape memory).**
- **Undercut management thanks to 6 axis robot.**
- **Internal and external shape carving for seat braces**
- **Excellent finish quality**
- **Unlimited size (monoblock mattress)**
- **Rapid milling delays**

Rigid foam milling:

- **Positive shape for thermoforming or stratification processes**
- **Shape milling for foot orthoses (multidensity milling in non-homogenous material)**
- **Lower limb orthoses milling with management of arch and heel shapes**
- **Large or small volume (from Childs boots to adult stand-lift)**
- **Cut out operations.**
